1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S.

Patent No. 771,092 to Ramey.

As concerns claim 2, a normal first state (current number) and a second state (new number to be printed).

3. Claims 1, 2, 11 and 29 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S.

Patent No. 6,708,534 to Ruan.

insertion and turning of said key (keyway is turned 90 degrees to an unlocked position and the position of the keyway indicates to the user that the padlock is in an unlocked position).

As concerns claim 11, a first state (keyway runs up and down) and a second state (when keyway has been turned 90 degrees).

Allowable Subject Matter

4. Claims 3-10, 12-28 and 30-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
